

convergent

Convergent delivers the seamless deployment of comprehensive telecom solutions on time and done right. Founded in 2002, Convergent specializes in the deployment of enterprise hosted and premise telephone systems for universities, colleges, and medical centers.

We ensure a successful deployment by providing all the services needed throughout your entire project. Whether that is implementing hardware you've chosen, or guiding purchasing decisions. Convergent can act as both your carrier liaison and deployment specialists. Starting with your dedicated project manager, our experienced team will expertly guide you through each aspect of the process to deliver your organization a superior telecom deployment solution.
